Yamato's Efficiency / Quality Conscious Enhances Finishing Quality of Your Garment Material

High Quality Finish while Minimizing Material Loss.

Combination of cylinder bed and "cut & re-entry" system enables:

- **Easier handling** of fabric
- Precise tension given to elastic for **uniform finish**
- **Minimum tape loss** (*1)

Easy & Correct Installation

No need to have headaches with tubing and wiring at the time of installation, as electronic / air components are pre-assembled.

Overlock Machine for Attaching Elastic Tape

Package in Elastic Attaching Operation Efforts, while Minimizing Downtime and Material Loss

No More Need to Buy Additional Tape Feeder. Besides...

Stepping motor driven synchronized tape dispenser, included as standard, feeds the tape according to machine loatation. So that, **further accurate and uniform finishing size** can be obtained as the **tape is always relaxed** when provided into metering device.

Besides, in case the tape is not fed properly (i.e. tangled), the device inform the operator with beep to avoid defects.
