## VG2735(PR)

A submodel of VG-class for attaching pre-closed woven elastic band on waist of men's brief etc. Equipped with right hand fabric trimmer to trim the edge of body fabric for neat finish. Exclusive sewing parts and guides are introduced for smooth insertion and sure overlapping of elastic band and body fabric. Fabric trimmer can be dropped for no trimming even during sewing. This model has a unique shape cylinder bed to ensure smooth feeding without obstruction for the crotch portion of briefs. Both front and rear rollers are fitted on sewing head to make easy installation. The machine is also fitted with dis-engageable right hand trimming knife mechanism, which cuts the edge of body material during the sewing to ensure uniform finishing, can be lowered under the stitch plate as desired by operating lever. PR: Rubber puller UT-A34: Air-operated automatic under thread trimmer. ST2-A: Air operated top thread trimmer
